## PROFILE SUMMARY

My name is Christos - Georgios Patronas. I am a 25 years old extrovert man who's able to work with a group of people capable of teaching and cooperate with me in a daily friendly basis. My interests are in CMS systems like WordPress and Drupal and Frontend Applications using JavaScript, Node.JS, React, Bootstrap, Bulma and more. Moreover, I am always energetic and eager to learn new skills, improve and advance in big projects. Also, I am a person who has great time management and experience working as part of a team and individually. Last but not least, I have successfully met deadlines on every project I've worked on.

**Military obligations fulfilled.**

## WORK EXPERIENCE

Internship - IT Helpdesk Support

2020 - 2021

**OTE Company Group I Marousi, Attika**

Providing Comprehensive Support to OTE users in Software and Hardware products such as clean installation of OFFICE SUITE(2010 and newer), cache cleaning, hard disk switching and more.

Junior FrontEnd Web Developer

2022- 2023

**Greek Army H.A.G.S. I Mesogeion Ave., Cholargos**

In my time at the Greek Army, I worked as a web developer in the WordPress department. My job was to manage, maintain, and upgrade the 48 different WordPress sites in the.army.gr domain using the WordPress CMS. Moreover, I contributed to the rework and upgrade of Army.gr from Drupal to WordPress CMS. Last but not least, prodiagrafes.army.gr is my personal live-created site on the world wide web for army purposes.

## PROJECTS

Thesis

**Remodeling of the department's website and analysis of web development technologies (Αναδιαμόρφωση της ιστοσελίδας του τμήματος και ανάλυση τεχνολογιών ανάπτυξης ιστοσελίδων, Greek edition)**

In the Bachelor's thesis entitled <<remodeling of the department's website and analysis of web development technologies>> I will make a brief presentation of the new and upgraded website of the Technological Educational Department of Informatics Engineering. In addition, I'll refer to CMS-Content Management Systems and technologies such as JavaScript/HTML/CSS...
